

Healthcare Partner

Job Purpose

Working across both the sales floor and dispensary as a healthcare partner, you play a crucial role in providing comprehensive solutions that help our customers live more positive lives. Whether dispensing medications, providing pharmacy services and advice or recommending products, your knowledge of our extensive range of health and wellbeing products and services ensures our customers receive the best experience that community pharmacy has to offer, resulting in them recognising and recommending us as experts within the healthcare arena.

Role requirements

As an advocate for the LloydsPharmacy brand, you have the personality required to build trusted partnerships and deliver outstanding service standards to customers. Your desire to learn about our products and services mean you can provide the expert advice and support that keeps our customers coming back to us time and time again. In addition, you will:

- Hold a valid Level 2 or equivalent Healthcare Assistant and Dispenser qualification
- Demonstrate strong communication skills with a confidence to engage with customers
- Demonstrate a flexible and adaptable approach to work, along with willingness to travel to other LloydsPharmacy stores as appropriate
- Be able to work accurately and efficiently with a high level of attention to detail
- Show a desire to embed newly acquired knowledge and skills

Career progression

There is natural progression from this role into a pharmacy technician position where you will be supported to complete the necessary qualification to undertake the role. Alternatively, you could look to continue to work as a healthcare partner within other areas of our extensive McKesson UK healthcare businesses

Our Values	Working collaboratively within a Pharmacy team dedicated to delivering world class pharmacy services your Role and Responsibilities include:
Integrity	<ul style="list-style-type: none"> • Ensure compliance with required ethical, professional and legal pharmacy standards with particular adherence to standard operating procedures and policies • Ensure all customers and patients receive safe and accurate advice - whether that is with the supply of over the counter (OTC) medicines, dispensing of prescribed medication or additional pharmacy services that would benefit customers • Ensure the correct reimbursement is obtained for both NHS services and private including the dispensing of items and local/national pharmacy services
